

ANNUITY SAVINGS ACCOUNT ACTIVITY

This statement is presented on a quarterly basis. PERF statutes require earnings for the Guaranteed Fund, and a market value increase or decrease for the Money Market, Bond, S&P 500 Stock Index, and US Small Companies Stock Funds to be credited on the last day of each calendar quarter. Crediting is based on the investment directions you chose and the previous quarter balance of your Annuity Savings Account (IC 5-10.2-2-4).

Keep in mind, historical returns are not an indicator of future returns. There are important differences among the Funds. Each of them has a specific investment objective, and other than the Guaranteed Fund, has certain investment risks. You may use more than one Fund in the investment of your Annuity Savings Account. When choosing your investment direction, remember you should take into account your time horizon, tolerance for investment risk, and the importance of diversifying your investments. You should read all Fund descriptions carefully before you complete your Investment Direction Form. Please see the Investing Your Annuity Savings Account Handbook for more information. **Remember you may only change your investment direction once every 12 months.**
